China
Asian Office & Factories
Mystical is the first company in
Canada to export from China.

Cambodia
Factory
Mystical is the world's first
company to manufacture
and export from Cambodia.

For more than 30 years, Mystical Distributing has supplied the “ooh’s and aah’s” across Canada in both Family and Professional Fireworks. Talk about fun! Our experts in Canada, China, and Cambodia, are continually designing new and innovative products to advance the Fireworks industry through research, customer feedback and a lot of fun experimentation! Fireworks are part of many Canadians fondest memories and great traditions, and Mystical is proud to play a role in this!

WELCOME TO CAMBODIA

In 2015, the Cambodian Fireworks Company was born because of a growing need for a world-class fireworks factory outside of China to ensure stability and prosperity within the global fireworks industry. Cambodia emerged as the ideal choice, boasting tremendous potential for growth, a skilled workforce, and compatibility with Western business culture. Construction promptly commenced, and by 2017, the factory's inaugural containers were exported to Canada.

Nestled within the idyllic landscapes of Kampong Speu province, the factory sprawls across more than 200 acres, harmoniously blending with mango orchards and sugar cane fields. Strategically located, the factory enjoys easy access to Phnom Penh and Sihanoukville Autonomous Port. With a workforce exceeding 400 employees and over 250 structures, the company boasts a high level of automation capable of producing a diverse range of fireworks, including both consumer and professional fireworks.

As the Cambodian Fireworks Company revolutionizes the global fireworks industry, we stand at the intersection of tradition and innovation, forging a path toward a brighter, more dazzling future. We are proud to say that a large majority of the products that we distribute are manufactured in Cambodia. There is more to come as we continue to illuminate the skies and captivate the world with our exceptional fireworks.

KNOW YOUR FIREWORKS

Find these icons throughout our catalog and on many of our product labels!

BRAND

SAFETY INFORMATION

Describes how to safely set up and ignite the fireworks.

SAFETY QR

Use your smart phone to scan and watch how to safely set up and ignite this type of fireworks.

THE INFO BAR

SHOTS **# Shots / Effects**
15 **COUPS** The number of separate ignitions.

Duration
20 **SEC** The approximate time of effect.

Sound Level
The intensity of sound from 1 to 5.

Firing Height
40 **M** The maximum height the effects reach.

FIRING SEQUENCE

Determine the sequence at which you ignite the fireworks.

OPENER **1** **Ouvreur**
These fireworks start the show.

BUILD UP **2** **Accumuler**
The body of the show and a great variety of effects, sound and colours!

FINALE **3** **Finale**
Fast-paced with a multi-shot finish.

ENCORE **4** **Encore**
All fast ignitions. Use these at the end!

PRO TIP # 1
Ignite each of the "#1 Opener" fireworks first, followed by the "#2 Build up", then "#3 Finale". If you have a "#4 Encore" make sure it is last!

PRO TIP # 2
Ignite the fireworks as #1,2,3, then repeat 1, 2, 3 and save the #4 Encore for last!

EFFECT VIDEO QR

Scan this QR to watch a video of the firework in action!

PRODUCT PACKAGING CONFIGURATIONS

Cases, Packs, Boxes or Bricks explained.

When indicated, the catalogue describes whether a firework has one of these inner packaging configurations such as a bundle, pack, box or brick. Simply use these item numbers for easy ordering!

BLOCK PARTY PACKS

VERTICAL CAKES

A cake is a firework comprised of single-shot stars, small aerial shells, or a combination of both, connected by a varying-speed fuse. The internal fuse will ignite each tube in series and may also ignite several tubes simultaneously! Vertical cakes are a multishot “show in a box” and a great addition to a fireworks show. Ignite one fuse, stand back, and watch as it vertically fills the sky with thrilling lights, sounds and effects! From 7 - 100 shots, there is a cake for every part of your show! Use the firing sequence to plan your show accordingly.

VERTICAL CAKES

Missile Launcher
Competition Fireworks

3 | **25** | **10s** | **30m** | **4/5**

FANNED CAKES

Multishot fanned cakes are very similar to straight cakes in that they are a “show in a box”; however, the difference is in the direction of fire. While vertical cakes launch their effects straight up (vertical), fanned cakes launch their effects at an angle filling up the sky. Use a mix of fanned and vertical cakes to cover the sky with fireworks! Use the firing sequence to plan your show.

Double Vision
Vulcan Fireworks

SALES & USE TIPS!

Fanned cakes fill a bigger part of the sky.

Place them in the centre position and ignite them in the middle to end of your show.

Due to their angle these cakes require larger distances away from spectators.

CAKE SLICES

Cake slices are multiple tubes packed with the best effects from our consumer fireworks cakes! Available in various configurations such as All Shots Together and Wipes. Use the Cake Wipes to create a wipe from one side of the field to the other, then finish with a couple of Cake Slices that are all shot together! The possibilities are endless!

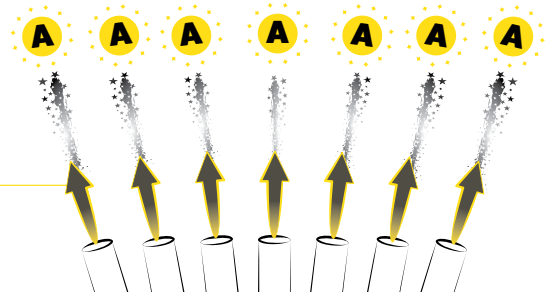

Professional grade effects for the pyro-enthusiast who wants to improve the quality of their displays! Add one or two of these to your display to fill the sky or connect a firing system and choreograph a performance!

CAKE SLICES

All Shots Fired Together

- All tubes ignite at once, launching their effects into the sky!
- Hit on dramatic moments, build up your finale or use them to transition from one scene to the next!

Firing Direction
All shots together.

SALES & USE TIPS!

A colourful, low-cost way to elevate any show with 60 seconds of vibrant ground-level excitement.

Perfect for a mesmerizing touch that keeps the audience engaged!

These flames can be seamlessly integrated into your display, creating a dramatic visual effect that will leave audiences mesmerized. Whether you're looking to highlight specific moments or add extra flair to your show, Coloured Flames deliver a bold and dynamic experience every time.

PRO PYRO VERTICAL CAKES

These cakes are in a class of their own! Pro Pyro cakes are a combination of fast-paced, loud and big bursts that make them comparable to what the professionals use! They don't need any fancy labels; the effects speak for themselves! Use a Pro Pyro cake or two near the end of your show for an incredible finale!

SALES & USE TIPS!

For customers who want the wildest, loudest and largest firework.

Use as grand finales!

FOUNTAINS

A cone or a tube that projects a spray of sparks, effects, colours, and sounds. They have one fuse but may link to one or more effects tubes.

Fountains come in many different shapes, from cylinders, cones, boxes, cats, pumpkins and other fun shapes. They are great for smaller spaces as the effect heights are usually low-level.

FOUNTAINS

SALES & USE TIPS!

A fun start to a show!

Mount on a vertical wood
plank.

Professionals use many
of these and ignite them
electronically.

SPARKLERS

A metal rod coated in a pyrotechnic composition that, when lit, gives off sparks. Sparklers are designed to be held in your hand during use. They come in many different lengths that will burn for specific durations depending on the size. The longer the sparkler, the longer it will burn.

FIRING SYSTEMS & IGNITERS

Electric Firing Systems

Use an electronic firing system with Talon igniters to easily ignite a fireworks show from a distance. Adds a professional touch to your show!

FIRING SYSTEMS

SHOOTING STAR FIRING SYSTEM

Wireless Range: 300-500m Continuity check ensures that every fireworks will ignite. The system comes with 2 modules, each with 6 cues, transmitter and hard shell case.

Shooting Star Firing System

Size (ea.): 250 x 200 x 70 (mm)

10055 EACH \$ 172.50

Talon Igniters

Ignite consumer fireworks from a safe distance. Clip the Talon Igniter onto the green fuse of the firework and connect it to your favourite firing system. It's that easy!

TALON IGNITER CLIPS

- 11473 1 metre Talon (25/bag) \$ 20.00
- 11474 3 meter Talon (25/bag) \$ 36.75

IGNITE FIRING MODULES

3. 2. 1. Boom.

IGNITE is a reusable wireless fireworks firing system designed to shoot fireworks from your phone or tablet. Using the IGNITE App, you can control a combination of up to six i18 or i36 modules for a maximum of 216 cues. Connect the IGNITE Igniters to the fireworks fuse, plug them into the module, and use the app to manually press buttons or automate your show with one press of a button to optional music.

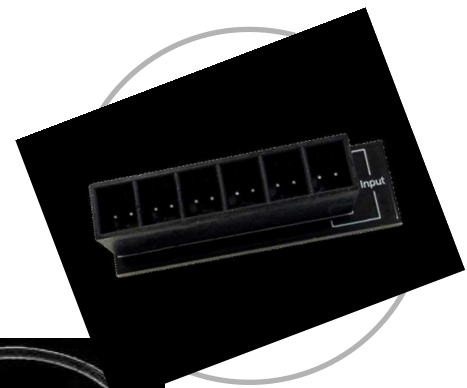

▲ Ignite i18 Firing Module
10431 EACH \$ 299.00

▲ Ignite i36 Firing Module

FIRING SYSTEMS

QUICK PLUG TALON IGNITERS

EFFORTLESS IGNITION FOR YOUR FIREWORK DISPLAY

The Quickplug Talon Igniter is designed for simplicity and safety, making it perfect for pyrotechnic enthusiasts of all levels. This one-time-use igniter easily clips onto Visco fuses and works seamlessly with the IGNITE firing systems. Once connected, the igniter uses an electric current to reliably ignite your firework. Its Quickplug connector ensures fast setup and smooth integration with the IGNITE app and firing modules, allowing you to automate your show with ease. Perfect for creating professional-grade firework displays without the hassle.

QUICK PLUG TALON IGNITERS

- ▲ 10439 2m Quick Plug Igniters (bag of 25) \$ 42.99
